

GIANLUCA MARCHITELLI

Communication Designer

Bio

Born in Milan in 1994, i'm a young designer that has just graduated in Communication Design at Politecnico di Milano. I had many experiences inside and outside of my study area, including: waiter, delivery, driver, sales assistant, branding, corporate identity, web design, UI design. I love music and photography.

Education

Politecnico di Milano / Communication Design BA Degree

September 2014 / July 2018

Studying at Politecnico during the last few years got me closer to graphic design, video editing, 3D modeling, typographic design, branding, photography and above all web design. My degree project is a book design and photography project.

Università Milano-Bicocca / Marketing, corporate communication and global markets

September 2013 / February 2014

I've attended classes during the first semester, but I immediately had to drop-out as I didn't like law and economic studies. After that I've begun working as a sales assistant at IKEA, then as a waiter and during the following years many others jobs.

Civico Liceo Linguistico "A. Manzoni" / Language diploma (High School)

September 2008 / June 2013

Language diploma in English, Chinese and Spanish.

C1 level of English, B1 level of Chinese and Spanish. For the last three years I've participated to M.U.N. (Model United Nations) and travelled around Europe (Paris, Arnhem, St. Petersburg) discussing politics with other high school students.

Work Experiences

"La Fabbrica" Pizzeria and Restaurant / Waiter

August 2014 / December 2014

I found a job as waiter in a typical italian restaurant in the heart of my city, where I worked for 5 months. During this experience I played every possible role: bar counter activities, tables service and cash activities. I've always been fine with my fellow colleagues and supervisors.

IKEA / Sales employee and warehouse worker

April 2014 / June 2014

I worked for three months as sales employee and warehouse worker at the San Giuliano Milanese's IKEA, near Milan. I've learnt very quickly how to deal with the IT supports (handheld computer, IT management system) and I've always been fine with my work team (in spite of a big generational gap).

Communication Design Work Experiences

Agenzia di Comunicazione Double Malt / Graphic designer

March 2018 / May 2018

Once finished all the exams, the last thing to do was my thesis for the degree, so I decided to search a job in my field of study. Then I started a three months collaboration with this communication agency, where I worked to design and actualize either printed or digital graphics, website mockups, edited videos.

Paolo Bramati Photography Studio / Assistant Photographer

July 2017

I worked as assistant in a studio with a professional photographer with over 25 years of experience on the field. I assisted him in every single step of the shooting, from staging to post-production.

LILT Milano / Co-Art Director of a charity funding campaign

December 2016

Along with my colleague L. Angè we created the campaign "Dai+Luce al tuo Natale" (in English "Give+Light to your Xmas"). We designed an eye-catching lettering and declined it in many forms (press release folder, website, layouts, postcards, etc.), in order to fund the creation of a new oncologic pediatric ward.
